Remember back when you first came out and started appearing en femme in public for the first time? Remember how you wish there had been someone for you to ask questions of and to assist you with all of those items that you were in desperate need of learning? Now is your opportunity to assist someone who needs your assistance in taking those first tentative steps.

What does it take to be a Big Sister? It takes little more than some of your time before *Fall Harvest* to help your Little Sister get ready, and a little more time while at *Fall Harvest* to accompany your Little Sister in preparing herself, responding to questions, and in general just being available to lend a hand or sympathetic ear when need be.

The Big Sister should be a true friend and motivator and have a passion for the first time attendees at Fall Harvest, paying special attention to their needs, comfort and recognition. We believe that a Big Sisters spirit should represent the heart and soul of Fall Harvest: the dignity, self-esteem, and respect for others, shared by the sisters of Fall Harvest. Thank you for taking on the responsibility of a Big Sister at Fall Harvest.
